Dear Hiring Manager,

I am writing to express my interest in the Graphic Design Internship at the Mornoe Co. My name is Talia M. White, and I am a Graphic Designer by day and Digital Artist by night. I am attending Harold Washington College for Digital Multimedia Design program and working toward Bachelor's degree. I believe my skills and passion make me a strong candidate as a intern .I am drawn to Mornoe Co. because of its strong foundation and commitment to providing its employees with hands-on experience in the business workplace. After reading the job description on LinkedIn, I was impressed with the Mornoe's core values, including the emphasis on improving individual skills, dedication, and mentorship. I share these values and believe they make me an excellent fit for the position. My strongest technical skills are in Photoshop and Illustrator, and my soft skills include hard work, dedication, communication, and a willingness to learn. During the fall semester, my professor assigned the class to create a website without using orginal content. I initially struggled to find inspiration until I discovered a Photoshop artist who created an online course for beginners to learn the basics of Photoshop. After reviewing the artist, I conceptize an online course teaching the basic of photoshop and manpulate their images simliar to art style. Though the coding process was challenging, I overcame it and produced a successful website.

Thank you for taking the time to read my resume and cover letter. If you have any questions, please do not hesitate to email me. I look forward to the opportunity to discuss my qualifications further.

Sincerely,

Talia M. White
